

Rasa Healing Interfaith Pray Circle Opening

Dear Ones, Great Creator, Spirit Guides, Angels, and Blessed Beings seen and unseen, to the guidance of nature in all life forms, and to all sources of guiding love, compassion, and light yet to be named - we call on you today to support and guide this sacred container as we hold steady and strong while turning to face the ache in our hearts.

We gather here, in circle today, honoring deeply rooted desires for radical change – may we feel the fullness of your unwavering support as we walk this journey today and always.

Unified Prayer for World Peace

We pray for the capacity to hold reverence for energy and life in all its forms, remembering that there is a vastness yet to be known beyond the veil.

We pray for the wisdom of equanimity that we may stand steady amidst the chaos and destruction of uncertain flame, for the willingness to remain anchored to the core of our center, the knowing of nature, the belief in a greater collective unfolding aligned with our highest good.

May the fierce compassion of our hearts lead us to the engagement of aligned choice rooted in patience, wise action, and a practice of understanding.

We pray for the end of suffering in all sentient beings' hearts, souls, and lives.

May the roots of our wishes be nourished by broader truths.

We pray for grace to open our hearts and our eyes, for the courage to envision a new reality of life on this planet where conflicts are resolved through radical honesty, curiosity, and the north star guidance of the true vibration of love.

We pray for the strength to face the suffering, recognizing our tears as agents of purification, the calls for gathering in unity, medicine for these times - revealing the path from fear to love.

May we soften amidst our grief, turning toward true celebrations of life, possibilities for change, new beginnings, and for the patience to allow the revealing of the light.

We pray for the humility and endurance to embrace resilience as we continue to learn, for the flexibility of recognizing the range of the human condition impacting all sides.

Today, in the face of global conflict, we pray for world peace.
